

My name is Tamara O. Breeden. I live at 2509 N. Bleckley Dr. in Wichita, KS. I support multiplexing of digital broadcasts because it allows stations like WRRS to exist. WRRS is the Wichita Radio Reading Service which provides radio service to the visually impaired in our community and in the immediate area. Those persons who listen to WRRS are able to hear national papers and the local newspaper including all the news, sports, editorials, human interest stories, and obituaries. They can also hear magazines and books read on a weekly basis. I have been a volunteer reader with WRRS for the past fourteen years and know what a valuable service WRRS provides. Please help us to be able to continue keeping our listeners informed and entertained by supporting multiplexing.
